RESPONSE TO OFFICE ACTION

The Commissioner of Patents and Trademarks
BOX RESPONSES
Washington, DC 20231

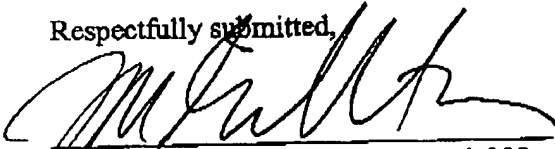

Dear Sir:

Responsive to the Office Action of February 14, 2002, this Supplemental Response is submitted to clarify a paragraph in the Remarks section of the Response filed August 14, 2002.

Specifically, in responding to the 103(a) rejection over Lo Sasso, in the last paragraph on page 19 of the Response, reference to "mesophiles" and "thermophiles" was reversed. As corrected, the paragraph should read:

Because of the "scattered" nature of the *thermophiles* as opposed to the readily forming microflocs of the *mesophiles*, applicant requires that the polyacrylamide be either a "cationic or anionic" polyacrylamide. Lo Sasso, dealing with *mesophiles* has no need to utilize anything other than a "nonionic" polyacrylamide.

Respectfully submitted,

J. M. (Mark) Gilbreth, Reg. No. 33,388
